POLARIS OCEAN LONG SLEEVE SPORT FIT JERSEY (MENS)

Our Ocean Long Sleeve Sport Fit Cycling Jersey is built around the all-rounder sport fit cut - not too loose and not too tight, a truly versatile fit.

POLARIS OCEAN LONG SLEEVE SPORT FIT JERSEY (MENS)

The key feature of this jersey are the full length sleeves providing a warmer option to our regular sport fit jersey.

The slightly relaxed fit and high airflow Polygeine™ Mesh ventilation system deliver abundant comfort and temperature control, while our Lightweight Polyester offers high flexibility as well as employing our VitaDry™ Moisture Management System to ensure breathability and superior moisture wicking.

When the temperature increases the full length front zipper and mesh side panels allow you to control ventilation and temperature.

Besides these features you will discover a host of other high tech trims and finishes including an ergonomic Lycra collar; hems with silicon grippers; and 3 reinforced rear pockets.

POLARIS OCEAN SHORT SLEEVE SPORT FIT JERSEY (MENS)

Our Ocean short Sport Fit Jersey is designed to deliver the perfect balance between comfort and performance. This jersey is ideal for both intermediary riders and pros who desire breathing room and comfort as well as a tailored fit.

POLARIS OCEAN LONG SLEEVE SPORT FIT JERSEY (MENS)

Balance is the key philosophy behind the technical design and cut of our Sport Fit range. Each jersey is engineered to ensure a tailored fit while allowing for maximum range of movement while not compromising on aerodynamics in the riding position. Not too loose and not too tight, a truly versatile fit.

The slightly relaxed fit and high airflow Polygeine™ Mesh ventilation system deliver abundant comfort and temperature control, while our Lightweight Polyester offers high flexibility as well as employing our VitaDry™ Moisture Management System to ensure breathability and superior moisture wicking.

Our Sport Fit Jersey has been subjected to continuous testing to find the sweet spot between comfort and aerodynamic, ergonomic performance.

POLARIS OCEAN BIB SHORTS SUPREMO (MENS)

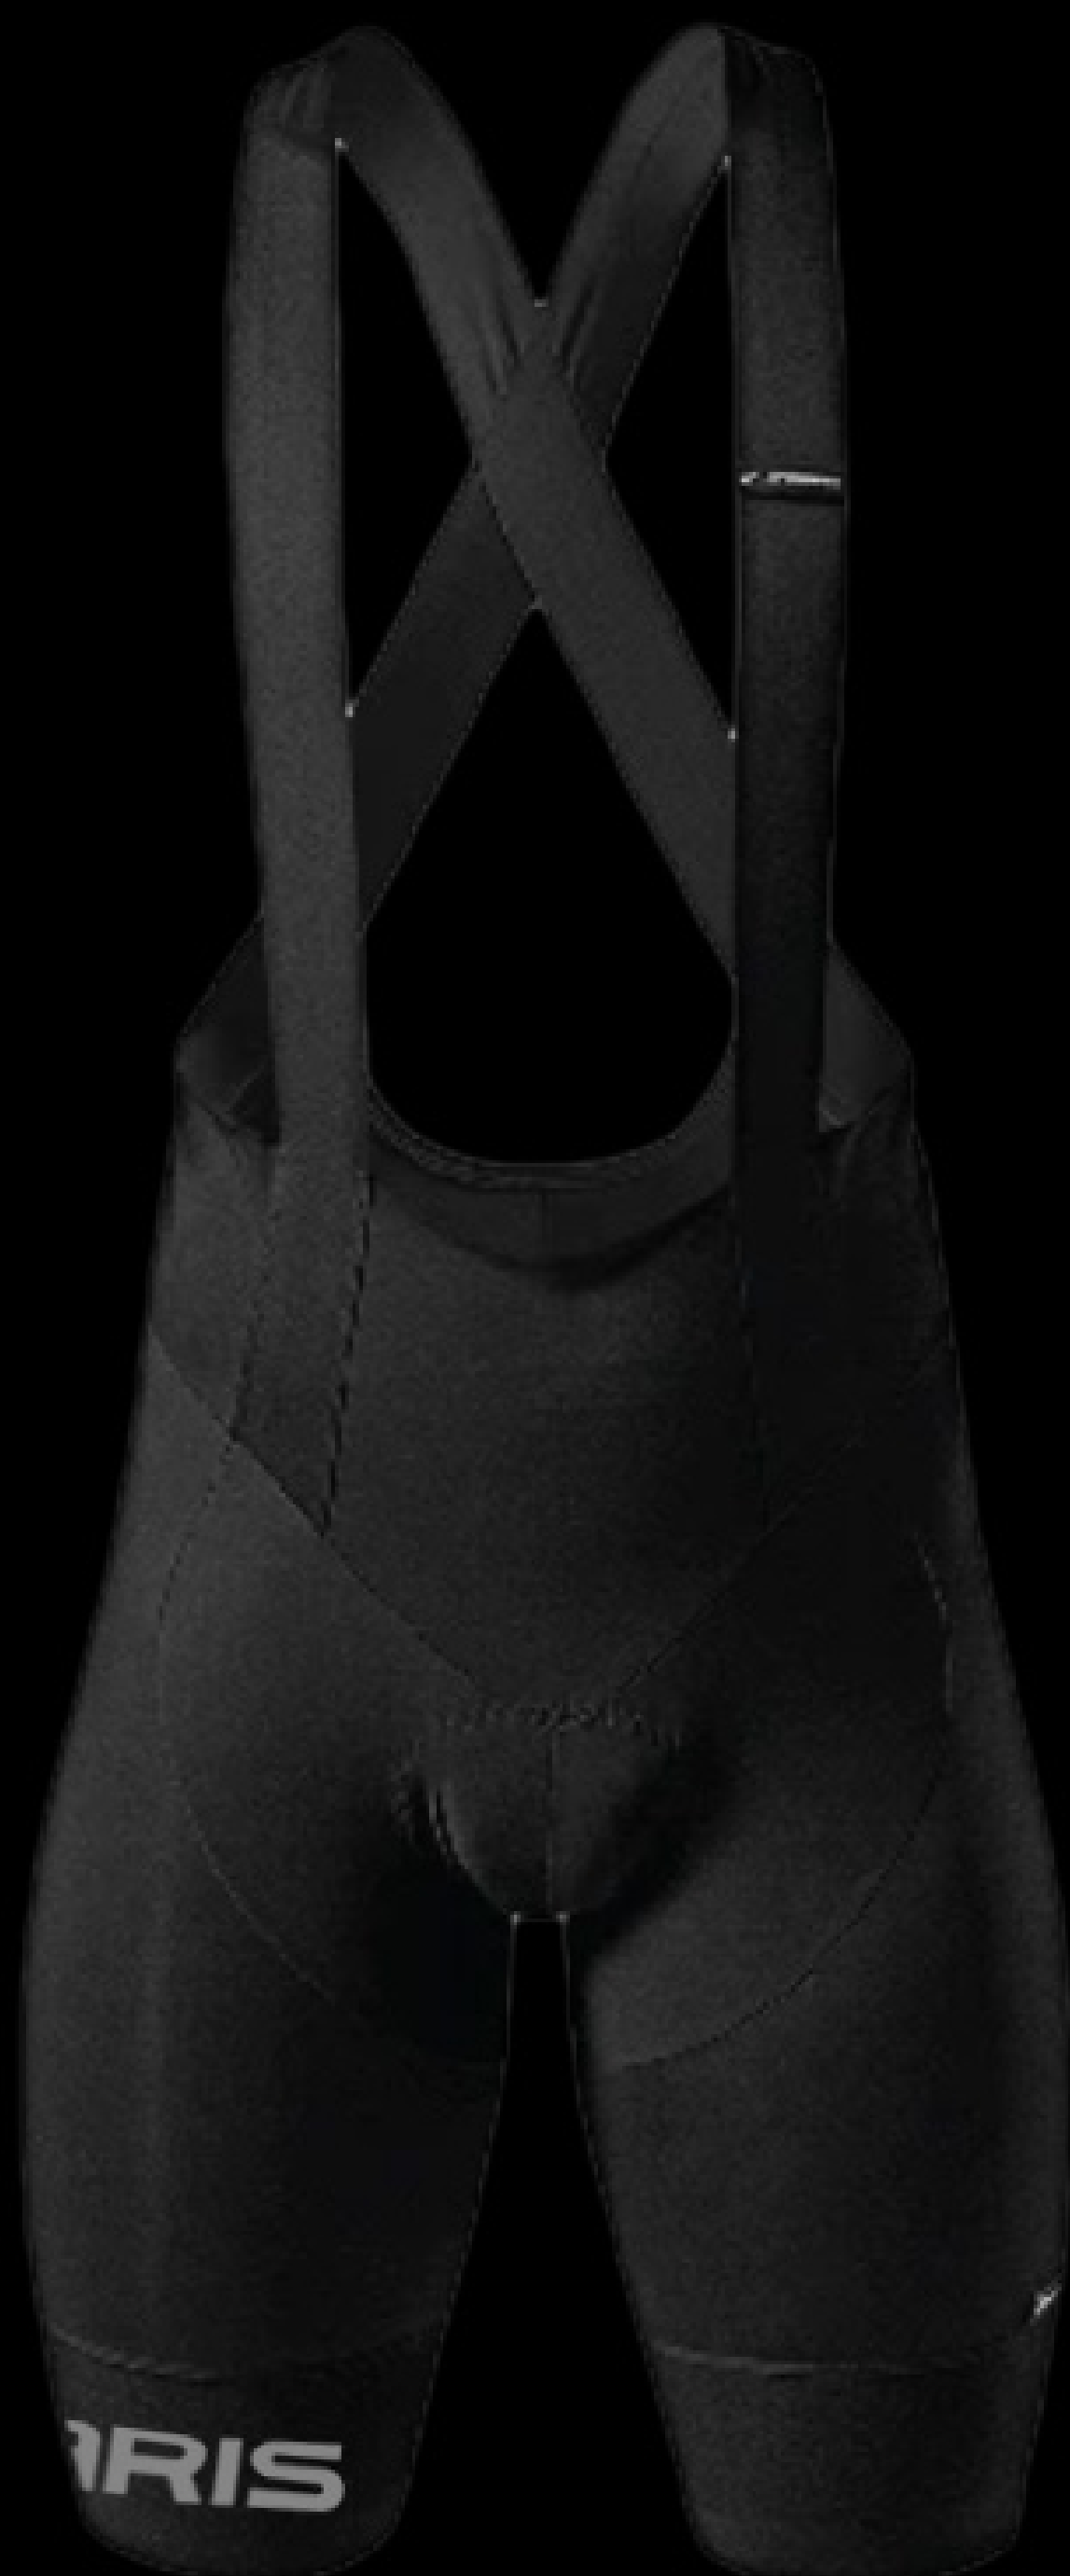

Featuring a new propriety multi panel design, the main body of the bib is made entirely from race tested Italian Lycra and has been ergonomically designed to stay in place while still offering you the range of movement required to change position on the saddle. The fabric also features advanced moisture wicking, with APF Fabric Technology ensuring that bib offers optimal moisture and odour control even in the most trying conditions.

POLARIS OCEAN BIB SHORTS SUPREMO (MENS)

A broad gripper elastic extends the Bib lower towards the knee, this innovation is essential to maintaining the integrity of the fit. The larger surface area prevents the bib from riding up, ensuring that the chamois stays in the right place over the course of your ride. On the other end the bib's Elastane™ elastic straps are designed to snapback maintaining their elasticity over the long term. Our new crossed straps are designed for comfort and prevent the straps from sliding off the shoulders, while the front strap has a useful sunglasses strip for storing your shades.

Visibility is always a central pillar of our design philosophy and the Supremo Bib is meant to be seen. It features two high visibility marks on the back of each thigh. When riding these create a flashing effect as your leg moves to help motorists notice you in low light.

We have worked with our European suppliers in creating a new 4-layer Chamois pad for the Supremo Bib. The outer layers feature comfortable, but durable fabrics which provide moisture and odour control as well as a softer feel. These outer layers have been designed that when they are stitched into the bib they help create the ergonomic shape of the inner pads. The inner layers consist of two distinct types of high tech foam, the very light, highly breathable VitaFoam, which absorbs heavy shocks and compression; and the complementary perforated foam, which cushions against lighter vibration and bumps. Working together each layer delivers something different, but ultimately works to create our most comfortable chamois ever.

POLARIS CORE SOFT SHELL JACKET (MENS)

Our Soft Shell Jacket is designed to keep you warm, making it perfect for pre and post ride situations in cold weather. This jacket features a form fitting cut and draw cord in the hem for a snug fit that keeps heat in and cold out. The Soft Shell fabric features a thermal insulation bonded micro fleece with a full length YKK Zipper in the front.

It also features two zip up pockets which are perfect for stowing your keys or wallet as you head out for that post ride coffee.

POLARIS TOPO / STEALTH OFF THE BIKE T-SHIRT (MENS)

This is a premium fitted T-shirt, made from 100% combed cotton and Lycra blend and is the perfect way to show your allegiance when you're not on the bike.

POLARIS GO BREATHABLE SOCKS (MENS)

All-day comfort and breathability, the Polaris GO socks get you there! Soft-touch feel and robust design, the GO is built for both speed and comfort. Incorporating 4-panels for maximum breathability and moisture management.
